RESPONSE TO OFFICE ACTION

Madam:

This is in response to the Office Action mailed on November 5, 2002. A  
three month extension of time and corresponding fee is enclosed.

IN THE DRAWINGS

In response to the examiner's objections to the drawings as failing to comply  
with 37CFR 1.84(p)(5), applicants enclose herewith a red-lined version of the original  
drawings, as well as corrected drawings indicating the changes requested, and applicants  
request that the examiner approve the corrected drawings.

IN THE SPECIFICATION

Please delete the large space between the word "course" in the last sentence  
of page 1 and the word "be" in the first sentence of page 2. The corrected sentence should  
read "A third alternative would of course be to use threads to do these tasks and use thread-  
signaling protocols, however, it is realized that this would not be entirely practical since  
threads are not fully supported on many computing platforms."

Please delete the excess spacing between the last two paragraphs on page 6.
